Experience

Ivan Franko University, four months.
We have got six months to finish a final project. I was the leader of our team. Our project was finished two months faster and end up the best.
Technologies used: gulp, sass, jquery, plugins, git.

Personal Site, one week.
https://andrian-kars.github.io/
My personal site to be used as Web CV.
Technologies used: react, sass, javascript, git.

OSF Digital, two months.
https://andrian-kars.github.io/HTML-Coding/osf-academy/
Built an educational project called OST Academy.
I have finished it ten-days before the deadline, have taken first place and got a job offer.
Technologies used: gulp, sass, javascript, jquery, ajax, git.

I have got much more smaller projects. You can find them on my GitHub or here:
